

Keshav Kumar Yadav

Professional Summary

Results-driven Computer Science graduate and Data Engineer with hands-on experience in developing ETL pipelines using Talend, Oracle SQL, and AWS. Worked on data integration and migration projects involving data extraction, transformation, and loading across cloud and databases. Skilled in Java, Python, SQL, and Shell scripting, with a strong focus on optimizing data workflows and ensuring high data quality and performance.

Skills Profile

Technical	
Operating System	Linux/Unix , Windows.
Environment	Client-Server , Data Warehouse Environments.
Database	Oracle , SQL server.
Internet Tools	HTML , CSS
Languages	Java, Python
Other	Talend, TMC

Functional	
Management and Leadership Skills	Ability to produce realistic software schedules , Documentation and reporting , Taking ownership of deliverables , Initiative and proactiveness and Critical thinking & Analytical mindset.
Training & Development	Technical ability to Train and Troubleshoot.

Professional Experience

Analysis & Reporting System of Bank Account Details

ETL Pipeline Developer

- Developed an ETL pipeline using Talend to extract flat files stored in AWS S3, transform and load them into Oracle SQL Server.
- Designed fact and dimension tables (Company, Location, Domain, Designation, Bank Branch, Loan, Account, Personal, Marital_Status, Education) to support structured analysis.
- Implemented data preparation and cleansing in Talend Cloud for high-quality reporting.
- Created and configured Talend Studio jobs utilizing multiple components to automate ETL workflows and reporting pipelines.
- Evaluated regional account distribution, guiding strategic expansion of banking portals and service centers.
- Analyzed reward point utilization, enabling targeted promotional offers and loyalty program enhancements.
- Reported on similar account types, optimizing product portfolio and identifying popular banking solutions.
- Assessed loan type distribution and interest rates, supporting competitive benchmarking and product refinement.
- Implemented interest rate reduction logic for long-standing account holders, fostering customer retention and loyalty.
- Calculated net interest percentage on deposits, providing insights into profitability and customer value.

Environment: AWS S3(Cloud platform) , Oracle (Database) , Talend Studio , Talend Cloud (Data cleansing) , Excel (Reports generation).

Summary of Projects

Analysis & Reporting System of Bank Account Details

ETL Pipeline Developer

Built ETL pipelines in Talend Studio to process banking data from AWS S3 to Oracle SQL Server, with data cleansing in Talend Cloud. Designed analytical tables and generated Excel reports covering account balances, customer segmentation, regional distribution, loan and interest metrics, and policy recommendations, enabling data-driven decisions.

Training and Seminars

- Oracle Database Training – Gained comprehensive knowledge of Oracle as a database, including SQL, PL/SQL, schema design, and database management concepts.
- Shell Scripting Training – Learned Linux/Unix shell scripting for automation, scheduling, and managing ETL workflows.
- Talend Studio Training – Acquired hands-on experience in Talend Data Integration, building ETL pipelines, data cleansing, and transformation using multiple components.

Certifications

- **Talend Data Integration Certification** – Completed beginner to advanced level training covering ETL pipelines, data transformation, cleansing, and integration workflows.
- **MySQL Certification** – Gained in-depth knowledge of relational database concepts, query optimization, and performance tuning.
- **SQL** – Introduction to SQL with MySQL Certification (Udemy) – Gained in-depth knowledge of relational database concepts, query optimization, and performance tuning.
- **Qlik Talend Core Developer Certification** – Earned certification showcasing proficiency in data integration, transformation, and pipeline development using Talend tools.

Education

- Bachelor of Technology (B.Tech) in Computer Science Engineering
- Lakshmi Narain College of Technology and Excellence, Bhopal, Madhya Pradesh, India
- Affiliated to Rajiv Gandhi Proudlyogiki Vishwavidyalaya (RGPV)
- Graduated: 2025 | Aggregate CGPA: 7.32

Professional Organizations

Capgemini

Publications/Presentations

Delivered a presentation on Data Warehousing during training, demonstrating understanding of ETL concepts, data pipelines, and integration workflows.
